Skills

Programming Languages:

JavaScript, TypeScript, HTML5, CSS3

Libraries & Frameworks:

React.js, Next.js, React Native, Node.js,

Express.js, Redux Toolkit, React Query,

GraphQL, Tailwind CSS, Bootstrap

Tools & Platforms:

Git, Github, Firebase, Jira, Asana, Trello, Sanity.io, Cypress, Docker, Strapi

Summary

Skilled Software Engineer with 3.5 years of experience building responsive, high performance web and mobile applications. Proven ability to develop scalable solutions optimized for speed, responsiveness, and exceptional user engagement.

Relevant Experience

Full Stack Developer at Agronomics, Islamabad

Technologies: React.js, Next.js, React Native, Node.js, Typescript, Tailwind CSS

MAY 2024 — PRESENT

- Developed scalable and maintainable components for a farmer-focused dashboard using Next.js and Tailwind CSS, enhancing UI consistency and development speed.
- Built reusable business logic modules to drive efficiency and reduce redundancy across web and mobile interfaces.
- Collaborated closely with backend engineers to integrate and test RESTful APIs, ensuring reliable data flow and robust error handling.
- Contributed to the development of the Agronomics mobile app using React Native, implementing reusable UI components and integrating critical features for land and crop management workflows.

Freelance Frontend Developer, Remote

Technologies: Next.js, React, Tailwind CSS

DEC 2023 — APR 2024

- Collaborated with international clients to build interfaces, leveraging React, Next.js, and Tailwind CSS for responsive, production-grade frontends.
- Translated Figma and wireframes into highly interactive UIs using component libraries, delivering polished and accessible user experiences.
- Created scalable, reusable frontend logic modules to reduce development time and enforce consistency across projects.
- Utilized Git and GitHub for version control, branch management, and team collaboration.

React Developer at Typent, Singapore, Remote

Technologies: React.js, Tailwind CSS

OCT 2023

- Created responsive front-end interfaces using React.js and Tailwind CSS, ensuring full cross-browser compatibility.
- Prioritized UI consistency, performance optimization, and pixel-perfect alignment across multiple screen sizes.
- Contributed to UI state management and component modularity to improve long-term maintainability of the codebase.
- Created scalable, reusable frontend logic modules to reduce development time and enforce consistency across projects.
- Integrated third-party services, Sanity.io and Firebase features such as authentication and real-time databases to enhance app functionality.

Junior Frontend Developer at Devorium, Lahore

Technologies: React.js, Next.js, Tailwind CSS

NOV 2022 — OCT 2023

- Developed responsive and scalable web interfaces using React, Next.js, and Tailwind CSS, delivering high-quality UI/UX for diverse business use cases.
- Built and maintained reusable component libraries and shared logic modules to improve development efficiency across projects.
- Collaborated with cross-functional teams using Git for version control and actively participated in code reviews, feature planning, and sprint delivery.
- Ensured application scalability and maintainability through clean code practices, structured state management, and modular architecture.
- Prioritized UI consistency, performance optimization, and pixel-perfect alignment across multiple screen sizes.

Internship

Frontend Developer intern at Devorium, Lahore

Technologies: HTML, CSS, Tailwind CSS, JavaScript, React.js

AUG 2022 — OCT 2022

- Gained a solid foundation in modern frontend development, working hands-on with HTML5, CSS3, JavaScript (ES6), and React.js in real-world projects.
- Built responsive UI components using Tailwind CSS, contributing to production code under the guidance of senior developers.
- Proactively sought mentorship to deepen understanding of core web technologies, React component patterns, and state management.
- Participated in team meetings, code reviews, and cross-functional collaboration, laying the groundwork for agile development workflows.
- Prioritized UI consistency, performance optimization, and pixel-perfect alignment across multiple screen sizes.

Education

Bachelor's degree in Software Engineering, Kohat University of Science and Technology (KUST), Pakistan

SEPTEMBER 2018 — AUGUST 2022
